Governor's Reform Will Shed Sunlight on Impact of Economic Development Subsidies

**Statement of Wade Gibson, Senior Policy Fellow, Fiscal Policy Center at
Connecticut Voices for Children on Governor's Executive Order on Economic
Development and Transparency**

“The Governor’s executive order is a bold, forward-thinking plan that will help Connecticut taxpayers understand how well public subsidies are spurring economic growth and creating jobs for Connecticut families. We applaud this valuable step toward greater accountability and transparency in the state’s economic development efforts.”

The Fiscal Policy Center at Connecticut Voices for Children, launched in 2012, provides research, analysis, and recommendations on state and federal budget and tax policies in the interests of Connecticut’s young people. (ctvoices.org/fiscal).
